

## **Terrorism and its impact on economy – wykład w języku angielskim**

On May 26<sup>th</sup> our Business-profile class, 2F, went to a lecture to Warsaw School of Economics. It was delivered by prof. Krzysztof Kozłowski, a highly-recognised scientist. The subject of the presentation was "Terrorism and its impact on country economy". The professor was mainly focused on the Yakuza Organisation and its impact on Japanese social and political life. Konopnicka Highschool students seemed truly interested in the discussed issues and agreed it was one of the best presentation we have visited so far.
